New Toys and Equipment for Kindergarten!

Last term, Surrey County Council audited our Kindergarten and awarded the class £2,000 to spend on learning resources and furniture and a further £1,250 on ICT.

We have now taken delivery of our new equipment all of which has been carefully chosen to help increase the children's self-selection of resources across the six key areas of learning. There is new home corner furniture and role play clothes, props and storage. We have a mirrored unit for the storage of natural and science resources, soft furnishings and chairs and a range of equipment to support our teaching in maths and numeracy.

With the ICT portion of the grant, we have purchased some remote control and other ICT toys, cameras, CD players and a light box.

The children are already making the most of it with the ICT toys and role play proving the most popular choices. All of the equipment will be on display at the forthcoming Open Day.
